

## **Right to an Attorney**

In all cases in the Municipal Court, you have the right to have an attorney represent you. When you are charged with an offense that may result in jail time as part of your sentence, you will need to decide if you want to continue with or without an attorney. The Court will ask you to complete an application for a court appointed attorney. If the Court finds you do not have the means to hire an attorney, one will be appointed. This is **not** a free attorney service. This attorney will provide his service at a reduced rate but **you** are responsible for payment of service.
